Inspiration

„Nature is full of contrasts, and architecture should aspire to reflect this diversity, creating spaces that seamlessly blend with the natural environment while also providing contrast through shape, texture, and materials.“

– Tadao Ando

Luis Barragán Morfín

Mexican architect whose life's work was awarded the Pritzker Prize for Architecture in 1980

“Architecture is a art when one consciously or unconsciously creates aesthetic emotion in the atmosphere and when this environment produces well being.”

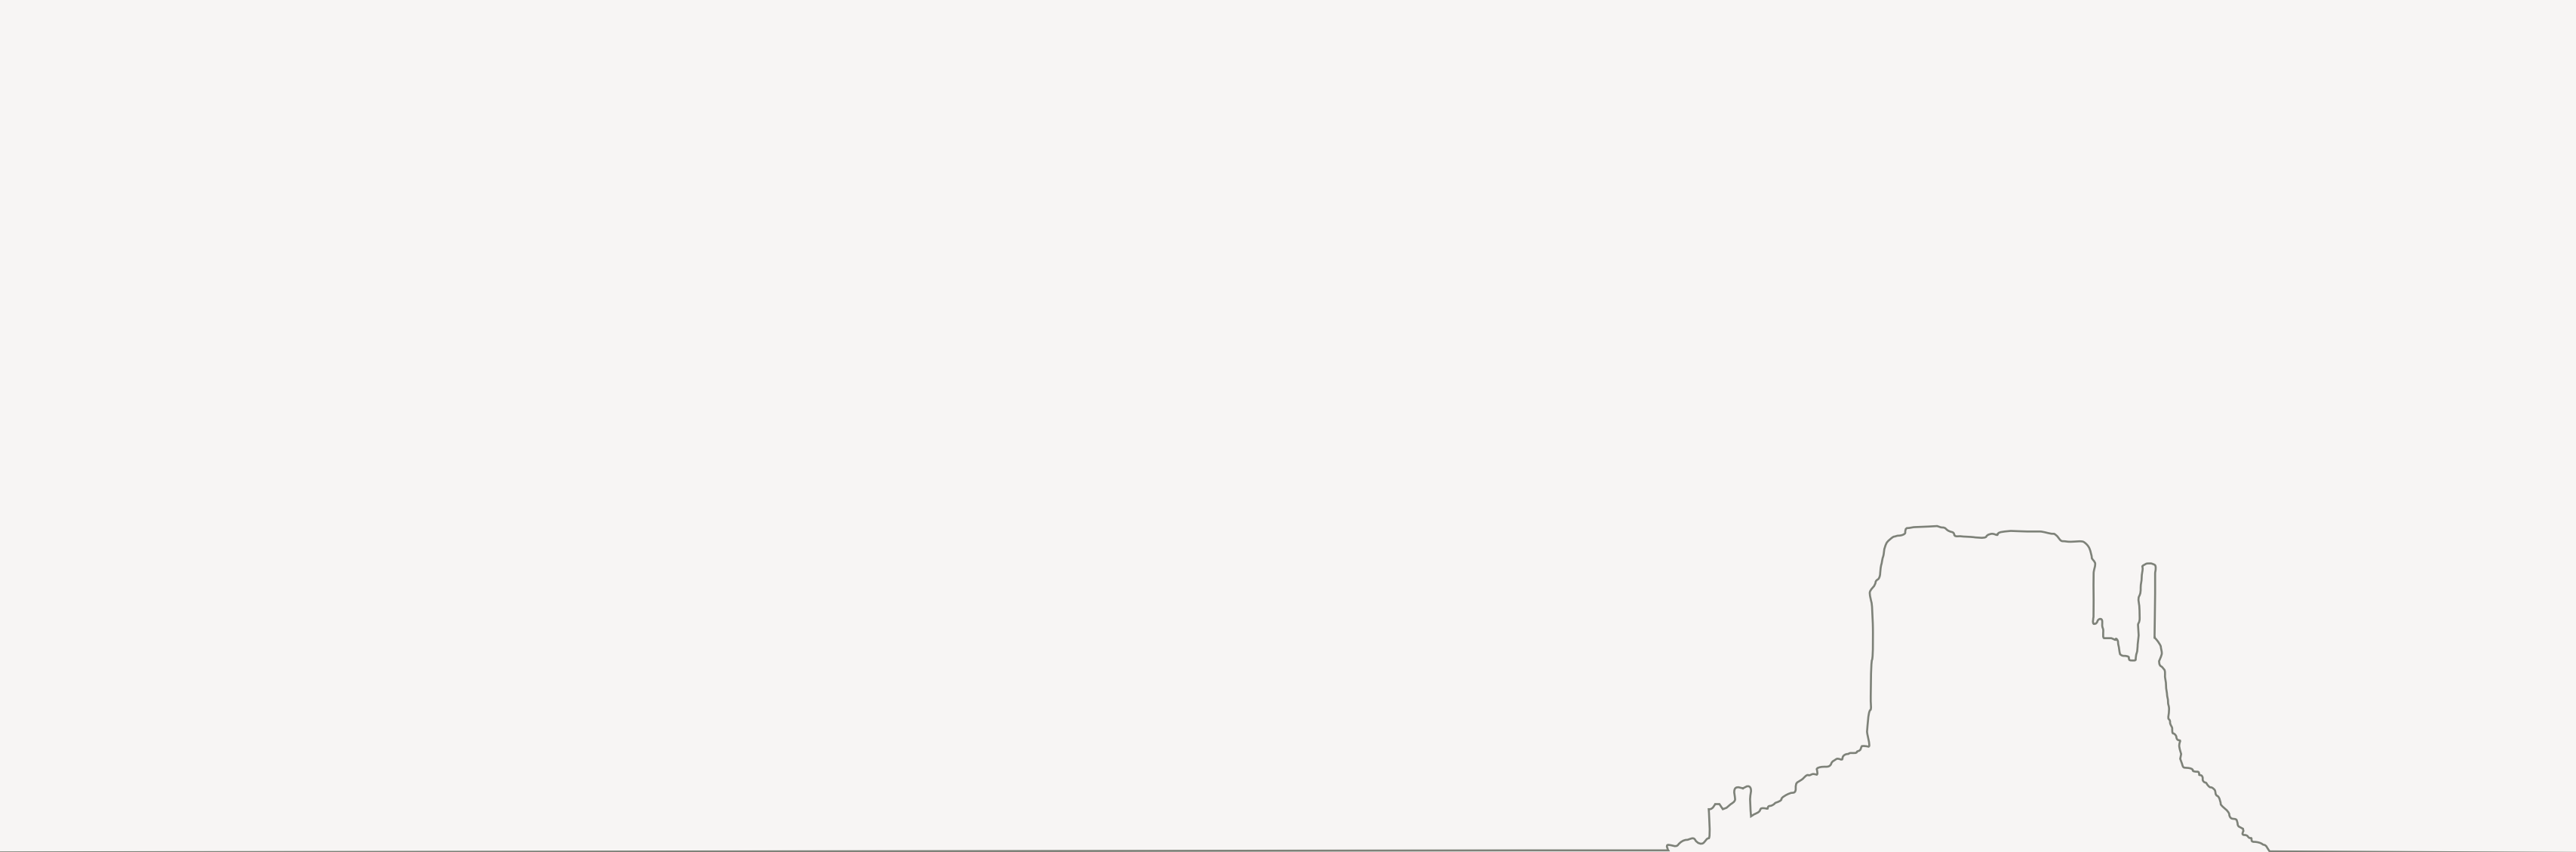

Aman Resort

located in the Secluded Desert Heart of Utah

“Framing the dunes, plateaus and ridges, Amangiti’s Suites and Homes embrace the raw aesthetic of the desert.”

„The most beautiful thing we can experience is the mysterious. It is the source of all true art and all science.

He to whom this emotion is a stranger, who can no longer pause to wonder and stand rapt in awe, is as good as dead: his eyes are closed.“ – Louis Kahn

Grazie.
